PEARSON QUALITY CONSTRUCTION

A Pearson boat is a long term investment! The exciting lines of the Vanguard are mastercrafted in enduringly beautiful, rugged, low-maintenance fiberglass. The hull, deck, and various structural components are bonded and laminated into a single unit of exceptional strength. Depreciation is minimized . . . overall cost per boat life is lowered by the molded-in colors and one piece seam-free hull that is completely impervious to the ravages of rot, rust, corrosion, electrolysis, and marine borers. Annual painting, scraping, and caulking become a thing of the past. For years and years of exciting pleasure, the Vanguard is proof that superb design and superior construction are the ideal combination.

UNUSUAL BELOW-DECKS "LIVEABILITY"

The added beam which Designer Rhodes worked into the Vanguard design pays off in unusual spaciousness both above and below decks. Below . . . the lady of the boat will find a new measure of comfort and convenience, and personal pride in the color combination of her choice. Ask your Pearson Dealer about the various interior decorator color combinations and hull and deck color options. Compare Vanguard's cabin arrangement with those of comparable size yachts . . . that little extra makes a tremendous difference! Go aboard and see for yourself!
