

Vanguard leads the pleasure pack!

Vanguard is out in front in many things! Racing performance. Liveability. Comfort. Graceful lines. Traditional sheer. Engineered fittings. Overall value. This Phil Rhodes design is a true yacht!

Fast, but friendly! Shallow draft as compared to most heavy-ballasted boats . . . but with increased beam for more roominess and comfort. High displacement ratio and ample ballast (4250# lead) make her very stable in heavy going, surprisingly nimble in light airs.

Popularity grows! More than 350 Vanguards are building racing records coast to coast. These handsome sloops and yawls (32'-6½" x 9'-3" x 4'-6") are

packed with distinctive features. Two separate staterooms sleep six. Excellent galley. Abundant storage space. Extra-roomy cockpit. Wide deck walkways for safety when handling sail.

Quality construction! Vanguard is a long term investment. Her exciting lines are mastercrafted in enduringly beautiful, low-maintenance fiberglass. Exceptional strength. Depreciation minimized. Request literature and name of your nearest Pearson Yachts dealer.
